## ABOUT ME

---

Hi I'm Abdulloh and I'm 14. I'm perfectionist and always try to make thing as perfect as possible. I'm looking for a part time job as a *Junior iOS developer*

## WORK EXPERIENCE

---

### SWIFTUI DEVELOPMENT EXPERIENCE

- Built an app for a restaurant *mvc* pattern, and made a search bar using *.filter* function
- Built a news app using *algona* api, also parsing json file from a api and using *mvc* pattern here as well
- Built a e-commerce app using json data instead of api and parsing it also used a *.map* and *.filter* function in order to sort out array of products into a *specified categories*
- Built a fitness app using timer, also saving user settings into a *Userdefaults* and saving bigger data into a *.plist* file. In this app I also used *neumorphic* design
